

**JEFFERY S.
JELICK, P.E.**

**PROJECT
MANAGER**

B I O G R A P H Y

Jeffery S. Jellick, P.E. is a Project Manager at Carney Engineering Group (CEG), a multi-discipline, forward-looking engineering firm located in York, PA. Jeff joined CEG in 2009, and specifically focuses on connection engineering, working closely with steel fabricators, detailers and contractors to provide solutions for the most efficient structural needs. Jeff routinely

performs and manages design, coordinates with steel detailers, creates calculation packages for Engineers of Record and maintains a high-level of knowledge of AISC specifications, industry standards and fabricator and erector preferences. Jeff is involved from a project's proposal through the design and construction phase, achieving desired scope, budget and schedule requirements, seeing projects through to completion.

Education

Pennsylvania State University
Bachelor of Science, Civil Engineering
State College, PA

Professional Licenses

- Professional Engineer in PA & MD

Project Experience

Jeff has eight years' experience in structural design, overseeing various industry projects including schools, office buildings, warehouses, higher education facilities, hotels, visitor centers and general building renovations.

Connection Design Experience:

George Washington Carver Center for Arts and Technology, Towson, MD

Connection design; approximately 1,600 tons

The 1500 Project, Harrisburg, PA

Connection design; approximately 550 tons

Towson Center Arena Addition, Towson, MD

Connection design; approximately 2,200 tons

SUNY Binghamton University, East Campus Housing, Binghamton, NY

Connection design; approximately 3,200 tons

PSU Millennium Science Complex, State College, PA

Connection design; approximately 4,200 tons of structural steel

Aberdeen Proving Grounds, Aberdeen, MD

Connection design; approximately 6,000 tons of structural steel

Design/Project Management Experience:

Courtyard by Marriott, Glassboro, NJ

Design of a new five-story, 68,800 square foot hotel

York College of Pennsylvania, New Freshman Dormitory, York, PA

Design of a new five-story, 82,770-square foot dormitory

Fieldside Commons Corporate Office Campus, Aberdeen, MD

Design of a new four-story, 120,000-square foot office building

Hershey Next Century Office Renovation, Hershey, PA

Renovation of existing manufacturing space into professional offices
